CHAPTER I

PUPIL STATISTICS AND FACILITIES DATA

Table 1. Illinois Public School Enrollment, Number of Graduates and High School Dropouts by County, 1977-1978

Columns in this table show 1977-1978 public school pre-kindergarten through twelfth grade enrollments, enrollments in ungraded and special education programs, the number of pupils from low-income families, the annual number of graduates and high school dropouts. The data reflect enrollments and the count of pupils from low-income families as of September 29, 1977. The data elements are listed by county. The state total is a county aggregate.

Special education students include all pupils, 3 to 21 years old, in programs specifically designed to meet the needs of handicapped children. Handicapped refers only to educable mentally retarded, hard of hearing, deaf, speech impaired, visually impaired, seriously emotionally disturbed, learning disabled, crippled or other health related handicap. Students whose attendance in special education programs is less than 50% of the time are counted as enrolled in their regular grade level or in an ungraded program.

Pupils from low-income families include students whose family's annual income is less than $5040 per year or whose family is receiving public aid. Pupils, 5 to 17 years old, who are in foster homes are also included.

Special Education, ungraded, and bilingual students are classified as being pre-kindergarten, elementary or secondary students by age range. Pre-kindergarten includes pupils, 3 to 5 years old, elementary includes pupils, 5 to 14 years old and secondary includes pupils, 14 to 21 years old.

Note: The School Code of Illinois, Chapter 122 of the Illinois Revised Statutes established the Department of Corrections as a public school district on July 1, 1972 (Article 13, Section 40 of The School Code of Illinois). The Department of Corrections is included in this summary.

Table 7. Illinois Nonpublic School Enrollment and High School Graduates by County, 1977-1978

Columns in this table show 1977-1978 nonpublic school pre-kindergarten through twelfth grade enrollments, enrollments in ungraded and special education programs, the number of children from low-income families, the annual number of graduates and high school dropouts. The data reflect enrollments and the count of pupils from low-income families as of September 29, 1977. The data elements are listed by county. The state total is a county aggregate.

Special education students include all pupils, 3 to 21 years old, in programs specifically designed to meet the needs of handicapped children. Handicapped refers only to educable mentally retarded, hard of hearing, deaf, speech impaired, visually impaired, seriously emotionally disturbed, learning disabled, crippled or other health related handicap. Students whose attendance in special education programs is less than 50% are counted as enrolled in their regular grade level or in an ungraded program.

Pupils from low-income families includes students whose family's annual income is less than $5040 per year or whose family is receiving public aid. Pupils, 5 to 17 years old, who are in foster homes are also included.

Special Education and ungraded students are classified as being pre-kindergarten, elementary or secondary students by age range. Pre-kindergarten includes pupils, 3 to 5 years old, elementary includes pupils, 5 to 14 years old and secondary includes pupils, 14 to 21 years old.

Note: The reporting of enrollment by nonpublic schools is voluntary.

Table 12. Number of Illinois Public School Teachers by County, 1977-1978

This table contains the total number of full-time (FT) and part-time (PT) teachers plus the full-time equivalency of teachers (FTE) for each county. County totals are further subdivided by pre-kindergarten, kindergarten, elementary, secondary, and special education categories. State total represents county aggregate:

Full-time equivalency (FTE) is defined as the amount of time employed in an assignment category divided by the amount of time that a full-time employee would be expected to serve in the assignment category. FTE is rounded to the nearest tenth decimal place.

Note: Chicago School District 299 is included in this summary.

Table 13. Illinois Public School Total Staff, 1977-1978

Statistics in this table present a comparison between public school staff employed during the 1976-1977 school year and during the 1977-1978 school year. Comparisons are made for each category between full-time personnel (FT), part-time personnel (PT) and the full-time equivalency of personnel (FTE). The category "instruction specialists and supervisors" includes consultants, coordinators, deans, department heads, supervisors, directors and others whose instructional responsibilities are related to a school and not to an entire district. District superintendents, assistant superintendents and business managers are classified as "certified administrators". "Pupil personnel services staff" is meant to include guidance counselors, school psychologists, social workers and certified school nurses. Non-classroom teachers, librarians, audiovisual personnel and other certified but non-instructional staff are classified as "other certified staff".

CHAPTER III

FINANCIAL STATISTICS

Table 17. Illinois Public School Receipts and Expenditures by District, 1977-1978

The left-hand side of this table shows the major sources of income: local taxes, common school fund, other state funds, federal funds, other revenue, and total receipts. Funds classified under "other state funds" include bilingual education, driver education, special education, vocational education, gifted education, adult education, summer school, school food services, and reimbursement to nonpublic pupils. Included in "other revenue" are student and community services fees, interest on investments, sale of property, tuition, payment from other districts, and miscellaneous receipts not otherwise classified.

The right-hand side of the table presents the expenditures by major accounting classifications: administration, instruction, operating maintenance and fixed charges, bond principal retired, capital outlay, all other expenditures, and total expenditures. "All other expenditures" includes student and community services and otherwise unclassified expenses. The increase in other expenditures, compared to previous years, is due partially to classifications in Program Accounting being converted to classifications in the Financial Accounting System for the purpose of uniform reporting.

The data are listed by district with county and state totals.

Table 18. Illinois Public School Per Capita Cost for Actual Operating Expense by District, 1977-1978

This table contains a limited analysis of school district 1977-1978 regular kindergarten through grade 12 operating expense. Columns show total expense, operating expense, and total expense allowable for tuition computation. The school district's per pupil operating expense and per capita tuition charge are then computed using the district's average daily attendance for the school year. The attendance figure includes all pupils attending schools within the district and does not include pupils who reside in the district but are attending schools full-time in another school district. The data are presented for each school district with county and state totals.

Table 21. Illinois Public School District 1976 Equalized Assessed Valuation and Tax Rates Used for 1977-1978 General State Aid and Estimated 1978-1979 General State Aid.

This table contains the 1976 equalized assessed valuation (EAV) and tax rates for each public school district in the State of Illinois. The EAV is the "fair cash value" (thirty-three and one-third percent of full market value) of all real estate and corporate personal property assessed during calendar year 1976. The tax rates are the result of each district's September, 1976, levy applied to the 1976 EAV. Tax revenues associated with the 1976 EAV and tax rates were collected during calendar year 1977.

The tax rates shown in this publication are identified as follows:

Identifier	Purpose

Building	Operations, Building, and Maintenance
B&I	Bond and Interest Fund
IMRF	Illinois Municipal Retirement Fund
TRANS	Transportation Fund
JC	Community College Tuition

Table 22. Illinois Public School Annual State Aid Claim Statistics by District, 1977-1978

Under the "resource equalizer" formula (formula A in the table), a district's claim amount is based on the concentration of Elementary and Secondary Education Act (ESEA) Title I eligible pupils, wealth as measured by equalized assessed valuation per weighted average daily attendance (WADA) pupil, and operating tax rate. Claim amounts for 1977-1978 are based on the formula computations prorated monthly at one-twelfth of the General State Aid appropriation. However, no district may receive estimated payments in excess of a 25 percent increase when compared to 1976-1977 prorated actual entitlements.

The other method of allocation is an amended version of the 1972-1973 Strayer-Haig Formula (formula B in the table). It provides for a qualifying tax rate, a .45 weighting of ESEA - Title I eligibles, and a 25 percent add-on with a maximum allowable claim increase of 25 percent over prorated 1976-1977 entitlements.

Columns show pupil attendance data, the number of ESEA-Title I eligible pupils, weighted average daily attendance based on the concentration of ESEA-Title I eligibles (TWADA-C) and on a .45 weighting of ESEA-Title I eligibles (TWADA - .45), 1975 equalized assessed valuation and actual operating tax rate, estimated claim amount, and net claim amount which includes prior year adjustments. Attendance data for each district include pupils tuitioned out to other districts, but do not include pupils tuitioned into the school district.
